EXPERIENCE

October 2025 – Present

CrossOver, Leeuwarden

Sales Representative (Part-time)

- Advise customers on transitioning to VodafoneZiggo business solutions
- Conduct needs analyses for self-employed professionals and entrepreneurs
- Build long-term customer relationships using a consultative sales approach

2024 - 2025

ViaDennis, Leeuwarden

Software Engineering intern

- Contributed to the development and maintenance of software systems, collaborating with cross-functional teams to deliver high-quality solutions.
- Assisted in debugging and resolving issues in existing codebases, improving system performance and stability.
- Gained hands-on experience with modern development tools and practices, including version control (Git), agile methodologies, and code review processes.
- Developed features and enhancements in alignment with project requirements and deadlines.
- Collaborated with senior developers to ensure code quality, best practices, and adherence to industry standards.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

- Next.js, React, TypeScript
- Designed and deployed a responsive personal portfolio to showcase projects and certifications.
- Utilized Next.js for server-side rendering and optimized SEO and load times.
- Built dynamic layouts with React and TypeScript, ensuring cross-device compatibility.
- Implemented modern front-end practices like state management with React hooks and CSS-in-JS.
- Set up CI/CD pipelines for streamlined development and deployed via Vercel using Git for version control.
- see more on Github.
